

RESOLUTION ADOPTING HOUSING ELEMENT AND FAIR SHARE PLAN AND AMENDING MASTER PLAN FOR THE BOROUGH OF POMPTON LAKES

WHEREAS, N.J.S.A. 40:55D-28 authorizes the Planning Board to prepare and, after a public hearing, adopt or amend a Master Plan, or components thereof, to guide the use of lands within the municipality in a manner that protects public health and safety and promotes the public welfare; and

WHEREAS, the Borough of Pompton Lakes Planning Board conducted a public hearing on February 24, 2026 to consider the adoption of the Housing Element and Fair Share Plan of February 2026, entitled "Fourth Round Housing Element and Fair Share Plan Borough of Pompton Lakes" and prepared by Sanyogita S. Chavan, P.P., AICP ("Housing Element"); and

WHEREAS, a notice of said public hearing was duly published in the Official Newspaper, and written notices were served as required by the provisions of N.J.S.A. 40:55D-13; and

WHEREAS, at said public hearing the aforesaid document was presented to the public and members of the public were given an opportunity to be heard; and

WHEREAS, the Board finds that the Housing Element is consistent with the physical, economic and social development of the Borough of Pompton Lakes and the purposes of the Municipal Land Use Law as stated in N.J.S.A. 40:55D-2.

NOW, THEREFORE, BE IT RESOLVED by the Planning Board of the Borough of Pompton Lakes in the County of Passaic and State of New Jersey on this 24th day of February, 2026, as follows:

1. The Board hereby amends the Borough of Pompton Lakes Master Plan and adopts the
- 202102

Housing Element in the form considered by the Board and attached hereto, and the Planning Board Secretary is directed to record this date, February 24, 2026, as the date of its adoption.

2. The Planning Board Secretary is authorized and directed to provide notice of this action in accordance with N.J.S.A. 40:55D-13.
3. The Planning Board Secretary is hereby directed to forward a copy of the Housing Element of February 2026, together with a copy of this Resolution to the Office of Planning Advocacy and to the Passaic County Planning Board as required by law.
4. This Resolution shall take effect as provided by law.

I, Susan O'Malley, Secretary of the Pompton Lakes Planning Board, in the County of Passaic and State of New Jersey, do hereby certify the foregoing to be a true copy of the Resolution adopted by the said Pompton Lakes Planning Board on the 24th day of February, 2026, at a meeting duly convened of said Body.

Susan O'Malley, Secretary

Fourth Round Housing Element & Fair Share Plan

INTRODUCTION

The Borough of Pompton Lakes adopted a Fourth Round Housing Element and Fair Share Plan (“Adopted Plan” or “HEFSP”) on June 17, 2025 as an amendment to the municipal master plan in accordance with the New Jersey Municipal Land Use Law (N.J.S.A. 40:55D-1 et seq.) and the New Jersey Fair Housing Act (N.J.S.A. 52:27D-301 et seq., as amended by P.L. 2024, c.2, hereinafter “FHA2”). This HEFSP was prepared in accordance with the Order of May 1, 2025, issued by the Honorable Darren J. Del Sardo, J.S.C., establishing a prospective need of 105 units and a present need of 45 units. The Borough, in accordance with FHA2, adjusted the 105-unit prospective resulting in a zero-unit “realistic development potential”, or “RDP”, to reflect the limited vacant and developable land in Pompton Lakes. This left a 105-unit “unmet need” (the difference between the prospective need and the RDP), of which the Borough was required by FHA2 to satisfy a minimum of 25% or 27 units through zoning or redevelopment.

The Plan was challenged by Fair Share Housing Center (“FSHC”) by way of correspondence dated August 25, 2025. FSHC challenged the Borough’s vacant land analysis and plan mechanisms. Settlement conferences were conducted on November 7, 2025, December 10, 2025, and December 17, 2025. During the settlement conference on December 17, 2025, the Borough and FSHC reached a settlement. The settlement terms were placed on the record, and a Settlement Agreement (henceforth “2025 Agreement”) was fully executed on January 10, 2026, included herein in **Appendix A**.

Since the 1975 New Jersey Supreme Court decision known as “Mount Laurel I,” New Jersey municipalities have had a constitutional obligation to provide opportunities for creation of low and moderate housing units. This 1975 decision led to a body of case law, legislative changes and rulemaking by a state agency that, collectively, is now referred to as the “Mount Laurel Doctrine.” The Fair Housing Act of 1985 was the legislative response to the landmark *Mount Laurel* decisions and provided the basis for the establishment of the Council on Affordable Housing (COAH) to administer municipal compliance with the FHA. Through these actions, New Jersey municipalities have been assigned a specific number of affordable housing units that must be created or planned for creation to have “satisfied” their constitutional obligation, referred to as their affordable housing obligation. The purpose of this Housing Element and Fair Share Plan (hereinafter the “Plan”) is to present how the Borough of Pompton Lakes will satisfy its constitutional obligation in the fourth round.

Affordable housing in New Jersey is defined as housing units which are reserved for households with incomes not more than 80% of the regional median income. The state is divided into six housing regions with a median income established for each region along with the thresholds for moderate- and low-income households based upon the household size. Each affordable unit must be reserved for low- and moderate-income households for a period up to 40 years and this is enforced through a deed restriction. Apart from providing the minimum required affordable housing, the municipality must ensure diversity in the level of affordability and diversity in the size of affordable units.

Municipal participation in this process is voluntary. However, municipalities that do not participate may be vulnerable to exclusionary zoning litigation, and builder’s remedy lawsuits. A builder’s remedy is a litigation tool that grants a developer the right to construct what is typically a multi-family development on land that was not zoned to permit the use or the residential density desired by the developer, provided a “substantial” percentage of the units are reserved for low- and moderate-income households.

New Jersey's Affordable Housing History

In its landmark 1975 decision, now referred to as “Mount Laurel I,” the NJ Supreme Court ruled that developing municipalities have a constitutional obligation to provide variety and choice of housing types affordable to low- and moderate-income households. In its 1983 “Mount Laurel II” decision, the NJ Supreme Court extended the regional fair share obligation to all municipalities with any “growth area” as designated in the State Development Guide Plan (NJDCG 1978) and determined that each municipality would have to establish its fair share obligation and provide zoning strategies to create a realistic opportunity for fulfillment of the fair share obligation.

In 1985, the Legislature enacted the Fair Housing Act in response to Mount Laurel II. The Fair Housing Act created the Council on Affordable Housing (COAH) as an administrative alternative to compliance in a court proceeding. The Legislature conferred “primary jurisdiction” on COAH and charged COAH with promulgating regulations to establish housing regions, to estimate the state’s low- and moderate-income housing needs, set criteria and guidelines for municipalities to determine and satisfy their affordable housing obligation, and to create a process for the review and approval of appropriate housing elements and fair share plans. Approval of a municipal housing element and fair share plan by COAH was referred to as “substantive certification” and it provided protection from builder’s remedy litigation during the period which the housing element and fair share plan addresses (i.e. the round).

The table below summarizes the timeline of each affordable housing “round” in New Jersey.

Round (Release Date)	Period	Summary
Round 1 (1987)	1987 - 1993	COAH calculated affordable housing obligation for each NJ municipality
Round 2 (1994)	1993 - 1999	COAH calculated affordable housing obligation for each NJ municipality
Round 3 (2004)	Invalidated 2007	COAH introduced the “growth share” approach for calculating municipal obligations
Round 3 (2008)	Invalidated 2010, 2013	COAH revised the “growth share” methodology
Round 3 (2014)	Unadopted	COAH calculated affordable housing obligations for each NJ municipality based on Round 1 & Round 2 methodologies.
Round 3 (2015)	2015 - 2025	NJ Supreme Court declared COAH “moribund;” ordered Superior Courts to resume oversight of municipal compliance with FHA; and ordered municipalities to rely on Prior Round Rules to prepare their HEFSPs.
Round 4	2025-2035	A4/S50 is signed March 20, 2024, amending the affordable housing regulations. This amendment eliminated COAH and created new processes/calculations for Round 4. The NJ DCA provided non-binding calculations for each municipality’s affordable housing obligations.

COAH created the criteria and guidelines for municipalities to determine and address their respective affordable housing obligations. COAH originally established a formula for determining municipal affordable housing obligation for the six-year period between 1987 and 1993 (*N.J.A.C. 5:92-1 et seq.*), which became

known as the “first round.” These rules established the first-round rehabilitation obligation (also referred to as the “present need”) and the first-round new construction obligation.

The first-round formula was superseded by COAH regulations in 1994 (*N.J.A.C. 5:93-1.1 et seq.*). The 1994 regulations recalculated a portion of the first round 1987-1993 affordable housing obligations for each municipality and computed the additional municipal affordable housing need from 1993 to 1999 using 1990 U.S. Census data. The regulations COAH adopted in 1994 to identify a municipality’s “cumulative” obligations for the first and second rounds are known as “the second round” regulations. The obligation of municipalities to create new affordable housing for the first and second rounds was referred to as the “prior round” obligation in the subsequent third round regulations.

On December 20, 2004, COAH’s first version of the third-round rules became effective some five years after the end of the second round in 1999. At that time, the third round was defined as the time from 1999 to 2014 but condensed into an affordable housing delivery period from January 1, 2004, through January 1, 2014. The third-round rules marked a significant departure from the methods utilized in COAH’s earlier rounds by creating a “growth share” approach that linked the production of affordable housing to residential and non-residential development within a municipality.

The growth share approach and the rules in which it was created were subject to significant litigation and ultimately overturned by the New Jersey Appellate Court. On January 25, 2007, the New Jersey Appellate Court decision, *In re Adoption of N.J.A.C. 5:94 and 5:95*, 390 N.J. Super. 1, invalidated key elements of the first version of the third-round rules, including the growth share approach. COAH issued revised rules on June 2, 2008 (as well as a further rule revision effective on October 20, 2008). Included in the 2008 rules was a recalculation of the cumulative first and second round obligation to account for updated data addressing secondary sources (filtering, demolitions, and residential conversions). Just as various parties challenged COAH’s initial third round regulations, parties challenged COAH’s 2008 revised third round rules. On October 8, 2010, the Appellate Division issued its decision, *In re Adoption of N.J.A.C. 5:96 and 5:97*, 416 N.J. Super. 462, with respect to the challenge to the second iteration of COAH’s third round regulations. The Appellate Division upheld the COAH regulations that assigned rehabilitation and first and second rounds obligations to each municipality but invalidated the regulations by which the agency assigned housing obligations in the third round, finding that the Agency continued to utilize growth share approach, albeit an amended approach.

COAH sought a stay from the NJ Supreme Court of the deadline to issue new third round housing rules set forth by the Appellate Division. Additionally, there were various challenges to the Appellate Division’s 2010 decision. On September 26, 2013, the NJ Supreme Court upheld the Appellate Court decision in *In re Adoption of N.J.A.C. 5:96 and 5:97 by New Jersey Council on Affordable Housing*, 215 N.J. 578 (2013), and ordered COAH to prepare the necessary rules. Subsequent delays in COAH’s rule preparation and ensuing litigation led to the NJ Supreme Court, on March 14, 2014, setting forth a schedule for adoption. Although ordered by the NJ Supreme Court to adopt revised new rules on or before October 22, 2014, COAH deadlocked 3-3 at its October 20th meeting and failed to adopt the draft rules it had issued on April 30, 2014. In response, Fair Share Housing Center (hereinafter “FSHC”) filed a motion in aid of litigant’s rights with the NJ Supreme Court.

On March 10, 2015, (“the March 10 Decision”) in the *Matter of Adoption of N.J.A.C. 5:96 and 5:97 by the New Jersey Council on Affordable Housing*, 221 N.J. 1 (2015), the Supreme Court declared COAH “moribund” and ordered the courts to provide a judicial remedy due to COAH’s failure. The March 10th Decision stipulated that municipalities may initiate declaratory judgment actions and seek approval of their housing element and fair share plans through the courts.

The Supreme Court ordered that affordable housing obligations for municipalities be determined on a court-by-court basis using the methodologies from the First and Second Round rules pursuant to N.J.A.C. 5:91 and N.J.A.C. 5:93. The Court held that:

“In establishing a process by which towns can have their housing plans reviewed by the courts for constitutional compliance, the Court's goal is to provide a means by which towns can demonstrate compliance through submission of a housing plan and use of processes similar to those which would have been available through COAH for the achievement of substantive certification. The end result is to achieve adoption of a municipal housing element and implementing ordinances deemed to be presumptively valid if thereafter subjected to challenge.”

In addition to the State agency activity and judicial decisions through 2015, the New Jersey Legislature amended the Fair Housing Act in 2008 (P.L. 2008, c. 46, often referred to as the “Roberts Bill”, or “A500”). This amendment established a statewide 2.5% nonresidential development fee, prohibited new regional contribution agreements (“RCAs”), required that 13% of all new affordable housing units be restricted to very low-income households (30% of median income), and added a requirement that municipalities had to commit to spend development fees within four (4) years of the date of collection.

Additionally, the Fair Housing Act was amended in 2013 (P.L. 2013, c. 6) to permit municipalities to enter into an agreement with a developer or development owner to provide a preference for veterans who served in time of war or other emergency to occupy up to 50% of the affordable units in a particular development. The preference is applicable to the first 90 of the 120 days of initial marketing and thereafter may be on a special waiting list for future available affordable units in the development. These amendments to the Fair Housing Act are not promulgated in any valid COAH regulations.

On March 30, 2024, Governor Phil Murphy signed the bill known as A4/S50 into law (P.L. 2024, c.2) which amended the Fair Housing Act to eliminate COAH and to create new processes to determine and satisfy the housing obligations for the Fourth Round of Affordable Housing. The Fourth Round is set for the period beginning on July 1, 2025, and terminating on June 30, 2035.

As part of the new process, the New Jersey Department of Community Affairs (DCA) was tasked with determining the affordable housing obligation for each municipality by October 20, 2024. Municipalities were required to declare their affordable housing obligation by a binding resolution by Jan 31, 2025, and to adopt their HEFSP by June 30, 2025, along with draft implementing ordinances, adopted resolutions, and other supporting documents. Final ordinances must be adopted by March 16, 2026.

The bill also created a new body called the Affordable Housing Dispute Resolution Program, which is responsible for reviewing plans for consistency with the Fair Housing Act and handling challenges to municipalities' stated housing obligations or to their affordable housing plans.

Overall, this amendment created significant changes to the fourth round of affordable housing, and all the subsequent rounds. Such changes include the process in which municipalities obtain protection from builder's remedy litigation – including but not limited to the elimination of COAH and the creation of the Affordable Housing Dispute Resolution Program, the methodology to calculate municipal prospective need obligations, and the administration of affordable housing units. However, the Fair Housing Act does not create or direct the creation of new rules that would provide further guidance, instead it states municipalities shall rely on rules adopted by COAH, unless contradicted by statute or binding court decisions, for municipal crediting, adjustments and compliance strategies. One notable example of contradiction is the generation of and use of bonus credits.

Municipal History of Affordable Housing Compliance

The following section provides an overview of the Borough's compliance with each iteration of the prior rounds.

First Round (1987-1993)

In 1988, the Borough of Pompton Lakes adopted a Housing Element and Fair Share Plan ("HEFSP") covering the years between 1987 and 1993, known as the "First Round;" however, it was never certified by COAH (it was considered in the 2000 Master Plan Reexamination Report).

Second Round (1993-1999)

In research conducted by H2M for this Plan, no records of a "Second Round" Housing Element, for the period between 1993 and 1999, could be found.

Third Round (1999-2025)

As mentioned in the prior section, on December 20, 2004, COAH's first version of the third-round rules became effective. In 2005, the Borough adopted a "Third Round" HEFSP for the years between 1999 and 2014. In the same year, the Borough filed a petition with COAH for Third Round Substantive Certification. Borough records indicate that it was Pompton Lakes' first petition to COAH. The Borough of Pompton Lakes was one of approximately 284 New Jersey municipalities to submit plans to COAH under the 2004 Third Round Rules. In 2007, the Third-Round rules were challenged and subsequently invalidated by the New Jersey Appellate Court. As such, Pompton Lakes' 2005 petition for Third Round substantive certification was invalidated. Pompton Lakes submitted Housing Monitoring Reports to COAH for the years 2005, 2006, and 2007.

COAH's new Third Round rules took effect on June 2, 2008, and were amended on September 22, 2008. In response to the new rules, Pompton Lakes adopted Resolution 08-121 in October 2008 which authorized the preparation of an updated Fair Share Plan, meant to cover the years 1999 to 2018. The Borough's COAH consultants soon halted their efforts in preparing the Housing Plan, however, as the adoption of the Highlands Regional Master Plan (RMP) in July 2008 by the Highlands Council had the potential to change the Borough's land use and development regulatory landscape.

On October 30, 2008, The Highlands Council and COAH entered into a Memorandum of Understanding to establish a cooperative planning process to plan for and create opportunities for affordable housing within the Highlands Region. As a municipality fully located in the "Planning Area" of the Highlands Region, Pompton Lakes secured a Highlands Plan Conformance Grant which began the process of assessing its intent to conform to the Highlands RMP. The Borough implemented the grant between May 2009 and May 2010. Participation in the grant program provided a process for the Borough to assess the compatibility between meeting the Borough's affordable housing needs and protecting its significant environmental resources. As part of the Grant process, Pompton Lakes prepared a "Highlands Housing Element and Fair Share Plan." Ultimately, upon completion of the Grant deliverables in 2010, the Borough decided not to petition the Highlands Council for Plan Conformance.

In 2010, the New Jersey Appellate Court again struck down COAH's Third Round Rules, and invalidated the Growth Share approach, leaving Pompton Lakes (and every other NJ municipality) questioning how to proceed with obtaining a certified Plan. With the rules invalidated, the Borough did not adopt the HEFSP it had just prepared as part of the Highlands Plan Conformance Grant process.

As mentioned in the prior section, the Supreme Court held that due to COAH's failure to adopt appropriate regulations, the administrative process has been "dissolved" and designed a transitional process whereby the municipalities could seek judicial approval of their affordable housing plans. In accordance with this decision, the Borough of Pompton Lakes submitted its plan to court. The Borough entered into a settlement agreement with Fair Share Housing Center and adopted a Housing Plan Element and Fair Share Plan on November 19, 2019, which was endorsed by the governing body on December 4, 2019. Although there isn't any vacant land available and the Borough could have adjusted their obligation through a vacant land adjustment, the third-round plan set forth mechanisms to address the entire obligation. The Borough's prior (1987-1999) and third round (1999-2025) were 102 and 265, respectively, for a total of 367 units. This was proposed to be addressed through various mechanisms which are described in detail in this document.

Fourth Round Compliance Process

The first step in a municipality's compliance process is to establish the affordable housing obligation. The first, second, and third round obligations are already established by COAH or Superior Court, as applicable. Only the rehabilitation obligation and current prospective need, constituting the fourth-round obligation, are subject to determination.

The methodology and formulas each municipality must rely upon to determine its rehabilitation, and fourth round obligation (as well as subsequent round obligations) are set forth within *N.J.S.A. 52:27D-304.1* thru *-304.3* of the Fair Housing Act. The March 8, 2018, unpublished decision of the Superior Court, Law Division, Mercer County, in re Application of Municipality of Princeton ("Jacobson Decision") is also to be referenced as to datasets and methodologies that are not explicitly addressed in *N.J.S.A. 52:27D-304.3*. Notwithstanding the methodology set forth in the Fair Housing Act, the Act also required the DCA to release a non-binding report calculating obligations for each municipality in the State.

The following provides an overview of the process, and the deadlines established for the fourth-round compliance:

Establishing the Affordable Housing Obligation

- October 20, 2024: DCA Regional and Municipal Fair Share Obligation Report Issued.
- January 31, 2025: Deadline for municipalities to adopt a binding resolution committing to the affordable housing obligation and seeking a Compliance Certification through participation in the Program.
- February 28, 2025: Deadline for an interested party to challenge the municipality's determination of its obligation to the Program. It shall apply "an objective assessment standard."
- March 1, 2025: The municipality's determination of its obligation will be established by default if no challenge.
- March 31, 2025: The Program must issue a decision on the obligation challenge.

Affordable Housing Compliance Certification

- June 30, 2025: Municipality shall adopt a Housing Plan and propose drafts of ordinances and resolutions to implement the plan. If a municipality does not adopt a Housing Element and Fair Share Plan by June 30, 2025, the Rules of Court may permit the Program or County Level Judge to allow the municipality to secure a grace period.

The Borough of Pompton Lakes adopted a Plan on June 17, 2025, which was endorsed by the governing body and submitted to the Program.

- August 31, 2025: Deadline for an interested party to file a challenge of the Housing Plan with the Program. If no challenge by this date the Program will begin review of the Housing Plan for consistency with the FHA.

FSHC was the only challenger to the HEFSP.

- December 31, 2025: Deadline for a municipality to settle any challenge or provide an explanation as to why it will not make all, or some of the changes brought by the challenge.

The Borough and FSHC settled on December 17, 2005.

- March 15, 2026: Municipality to amend the Housing Plan and implement the agreed upon revisions resulting from a challenge and adopt all pertinent ordinances. The Housing Plan and adopted ordinances shall be immediately filed with the Program.

Ongoing Compliance

Midpoint (2030): Action by municipality or interested party filed to seek a realistic opportunity review of any developments that have not moved forward.

REQUIRED CONTENT OF A HOUSING ELEMENT & FAIR SHARE PLAN

In accordance with the Fair Housing Act at N.J.S.A. 52:27D-310, a municipality's housing element shall be designed to achieve the goal of access to affordable housing to meet present and prospective housing needs, with particular attention to low- and moderate-income housing. The housing element shall include the municipality's strategy for addressing its present and prospective housing needs and shall contain the following:

1. An inventory of the municipality's housing stock by age, condition, purchase or rental value, occupancy characteristics, and type, including the number of units affordable to low- and moderate-income households and substandard housing capable of being rehabilitated;
2. A projection of the municipality's housing stock, including the probable future construction of low- and moderate-income housing for the next ten years, taking into account, but not necessarily limited to, construction permits issued, approvals of applications for development and probable residential development of lands;
3. An analysis of the municipality's demographic characteristics, including but not necessarily limited to household size, income level and age;
4. An analysis of the existing and probable future employment characteristics of the municipality;
5. A determination of the municipality's present and prospective fair share for low- and moderate-income housing and its capacity to accommodate its present and prospective housing needs, including its fair share for low- and moderate-income housing;
6. A consideration of the lands that are most appropriate for construction of low- and moderate-income housing and the existing structures most appropriate for conversion to or rehabilitation for, low- and moderate-income housing, including a consideration of lands of developers who have expressed a commitment to provide low- and moderate-income housing.
7. An analysis of the extent to which municipal ordinances and other local factor advance or detract from the goal of preserving multigenerational family continuity as expressed in the recommendations of the Multigenerational Family Housing Continuity Commission;
8. For a municipality located within the jurisdiction of the Highlands Water Protection and Planning Council, established pursuant to section 4 of P.L.2004, c.120 (C.13:20-4), an analysis of compliance of the housing element with the Highlands Regional Master Plan of lands in the Highlands Preservation Area, and lands in the Highlands Planning Area for Highlands conforming municipalities. This analysis shall include consideration of the municipality's most recent Highlands Municipal Build Out Report, consideration of opportunities for redevelopment of existing developed lands into inclusionary or 100 percent affordable housing, or both, and opportunities for 100 percent affordable housing in both the Highlands Planning Area and Highlands Preservation Area that are consistent with the Highlands regional master plan; and
9. An analysis of consistency with the State Development and Redevelopment Plan, including water, wastewater, stormwater, and multi-modal transportation based on guidance and technical assistance from the State Planning Commission.

DEMOGRAPHIC, ECONOMIC, & HOUSING CONDITIONS

This document includes the essential components of a housing element as specified in N.J.S.A. 52:27D-310 of the New Jersey Fair Housing Act.

Municipal Demographic Conditions

The following discussion of municipal demographic conditions relies on the latest available Census data at the time of this report, and other sources of data, where available. The analysis uses the 2020 Decennial Census data in some cases; where possible, however, newer data from the 5-Year 2023 American Community Survey (ACS 5-Year) was used.

Historic & Projected Population

Since 1950, Pompton Lakes Borough has experienced a period of rapid population growth followed by a period of population loss, and more recently a slight recovery in population growth. The greatest growth occurred between 1950 and 1970, when the Borough's population more than doubled from 4,654 residents in 1950 to its peak population of 11,397 residents in 1970. More specifically, in the 1950s the population grew by 102.9% and during the 1960s, the population grew another 20.7%. However, after 1970 the Borough's population began to decline. The Borough lost 6.5% of its population by 1980 and lost another 1.1% in the following decade which resulted in a population of 10,539 residents in 1990. The Borough's population began to grow again in 2000 with a small increase of 1.0%, or 101 residents. The population continued to grow, albeit very slowly, with an increase of 4.3% by 2010 and 0.3% by 2020. While the 2020 Decennial Census reported the Borough's population at 11,127 residents, the 2023 ACS 5-year data estimate the Borough's population to be about 11,010 residents.

Year	Population	Change	Percent Change

2050	12,577	1,405	12.6%

Source: NJTPA Population Forecast by County and Municipality 2050

The North Jersey Transportation Authority (NJTPA) forecasts in its “2050 Regional Transportation Plan” that Pompton Lakes will continue to grow, gaining approximately 40.1 residents per year, between 2015 and 2050

Age Distribution of Population

The median age of Pompton Lakes residents is 39.4 years old (2023 ACS 5-year), which is 1.1 years older than the median age of residents in Passaic County at 38.1 years but is younger than the State median age at 40.1 years. The median age of Borough residents has increased by 3.5 years from the 35.9 years in 2010. Since 2010, the median ages of the County and the State have increased as well. The median age of the County increased by 2.1 years from 36 years in 2010 and the median age of the State increased by 1.6 from 38.5 years old in 2010. The trend of an aging population in the Borough is similar to the aging demographics at the County and State level.

As per the 2010 and 2020 Decennial Census data, presented in Table 4 below, the Borough’s aging population can be attributed to a decrease in the number of school-age children and family-age persons while the number of seniors has increased. Youth under 19 years-old accounted for 20.8% of the Borough’s population in 2020, which is a decline from 2010 when this age group comprised 28% of the population. Residents in the 20-24 age-cohort increased rapidly by 44.3% since 2010. However, the 20-24 age cohort is a small share of the population, constituting 6% of residents. As compared, the 25-35 age-cohort made up 16.3% of the population in 2010 but declined to 12.1% of the population in 2020 (decline of 25.4%).

In 2020, the age cohorts that held the largest shares of the population were the 35-44 age cohort at 17.2% of the population, the 45-54 age cohort at 13.4% of the population, 55-64 age-cohort at 16.2% of the population, and 65 and older age-cohort at 14.3% of the population. The percentage of each of these age-cohorts increased since 2010 except for the 45-54 age cohort which declined by 15.1%. The 35-44 age-cohort grew by 17.4% in this period. However, this growth was accompanied by a trend of rapid growth of older people in the Borough. Between 2010 and 2020, the number of residents in the 55-64 age cohort and 65-and-over age cohort increased by 60.5% and 30.8%, respectively. More specifically, these older age-cohorts increased from 21% of the population in 2010 to 30.5% in 2020.

Table 4: Population by Age Cohort

Educational Attainment

Pompton Lakes' residents are well-educated, and the Borough has higher rates of educational attainment when compared to Passaic County. In 2023, 26.2% of residents that were 25 years of age or older earned at least a bachelor's degree and 15.1% earned a graduate or professional degree. This is higher than the County where 20.2% of Passaic residents of at least 25 years of age earned their bachelor's degree and 10.1% possessed a graduate degree or professional degree. In Pompton Lakes, less than 5.4% of residents did not complete high school when compared to 8.4% of the County residents.

Highest Level of Education	Pompton Lakes	Passaic County
Less than 9th Grade	3.0%	8.4%
9th to 12th Grade, no diploma	2.4%	6.4%
High school graduate (includes equivalency)	30.8%	33.7%
Some college, no degree	16.0%	15.6%
Associate's degree	6.4%	5.5%
Bachelor's degree	26.2%	20.2%
Graduate or professional degree	15.1%	10.1%
<i>High school or higher</i>	94.6%	85.1%
<i>Bachelor's degree or higher</i>	41.4%	30.3%

Source: US Census Bureau, ACS, 2023 5-Year Estimates, S1501 Educational Attainment

Race and Hispanic Origin

The Borough became slightly more diverse between the 2010 and 2020 period, as illustrated in Table 6 below. In 2010, 85.6% of the population identified as White, which is about 2% less than in 2010, when 87.6% identified as White. The Borough is less diverse when compared to the County, where 60.6% of residents identified as White in 2020. Persons who identified as Black or African American descent, Asian, other races, and two or more races make up a greater share of Passaic County's population at 39.4% than that of the Borough at 14.4%. Furthermore, the county-wide Hispanic/Latino population at 41.9% is more than double that of the Borough's population at 15.6%.

	Pompton Lakes		Percent Change (2010-2020)	Passaic County		Percent Change (2010-2020)
	2020	Percent		2020	Percent

Income and Poverty Status

Median household income, median family income and median non-family income are measures of the “middle income value” in an ordered list of each group’s income values. Non-Family Incomes are those values that represent a householder either living alone or with non-relatives only, whereas Family Income are those values that represent householders living with one or more individuals related by either birth, marriage, or adoption. The Median Household Income is a value represented by the household, regardless of whether it is a family or non-family household. Per Capita Income is determined by dividing the aggregate income of the Borough’s residents by its total population.

According to the 2023 ACS, the median household income for Pompton Lakes residents was \$119,038. This is approximately \$36,213 higher than the median household income of the County at \$82,825, and \$19,257 higher than that of the State at \$99,781. Table 7 below presents income statistics for Pompton Lakes as per the 2023 ACS data.

The Office of Management and Budget (OMB) sets poverty thresholds at a dollar value, which represents the poverty line and varies by family size and composition.¹ If a family’s total income is less than the appropriate threshold, then that family and every individual in it is considered to be “in poverty.” According to the OMB, approximately 9.7% of residents and 8.2% of families in Pompton Lakes fall below the poverty line.

¹ Office of Management and Budget determines poverty thresholds specified by the Statistical Policy Directive 14. Poverty thresholds are determined by multiplying the base-year poverty thresholds (1982) by the monthly inflation factor based on the 12 monthly Consumer Price Index (CPI)s and base year CPI. Poverty Thresholds do not vary geographically.

Income Type	Pompton Lakes	Passaic County	New Jersey
Median Household Income	\$119,038	\$82,825	\$99,781
Median Non-Family Income	\$105,458	\$43,873	\$58,033
Median Family Income	\$138,641	\$98,062	\$121,944
Per Capita Income	\$52,389	\$38,873	\$52,583
Poverty Status (% of people)	9.7%	14.1%	9.7%
Poverty Status (% of families)	8.2%	11.9%	7.1%
Poverty status (% of children under 18)	16.4%	20.7%	12.9%

Municipal Employment Characteristics

The following discussion of the municipal employment characteristics relies on Census 2020 data and more current 2023 5-Year ACS data where possible, as well as NJ Department of Labor and Workforce Development data and other sources.

Historic and Projected Employment

The unemployment rate in Pompton Lakes in the last 20 years has fluctuated but has responded to events that have had an impact on the broader economy such as the 2008 Great Recession and the Covid-19 Pandemic. In the years leading up to the 2008 Great Recession, Pompton Lakes Borough experienced an unemployment rate between 3.3% and 4.1%. Once the recession began, unemployment rose rapidly and peaked at 11.5% in 2010. This is the same as Passaic County but higher than the State at 9.7%. In the following decade, unemployment steadily declined and reached 2.9% in 2019, which was the lowest unemployment rate since 2004. In 2020, the Covid-19 Pandemic began which led to the implementation of “lockdowns” and stringent safety protocols which resulted in a sudden increase of unemployment across the nation. The unemployment rate in Pompton Lakes almost tripled to 8.5% within the span of a year.

Although the unemployment rate in 2020 was very high, it was lower when compared to the County and State which had unemployment rates of 12.7% and 9.4%, respectively. By 2021, corresponding with the end of Covid-19 lockdowns and the relaxation of safety protocols, unemployment fell to 6.1%. In recent years, unemployment rates have decreased and was reported as 3.2% in 2022, nearing the pre-pandemic rates.

Year	Pompton Lakes	Passaic County	New Jersey
2004	3.3	6.1	4.9
2005	3.9	5.5	4.4
2006	3.9	5.7	4.6
2007	4.1	5.3	4.2
2008	5.2	6.6	5.4

Source: New Jersey Department of Labor and Workforce Development, Labor Force Estimates

The North Jersey Transportation Authority (NJTPA) forecasts in its “2050 Regional Transportation Plan” that employment will increase by approximately 294 employees or 13.5% over the 35-year period between 2015 and 2050. Without redevelopment or business expansion taking place in the Borough, it is not clear how the Borough would meet this forecast of adding 8.4 new employees per year.

Year	Employment	Change	Percent Change
2015	2,177	--	--
2050	2,471	294	13.5%

Occupational Characteristics

According to the 2023 ACS, 73.7% of workforce-eligible residents (16 years and over) are in the labor force, with most being private wage/salary workers. Around 6% of residents identify as “self-employed.”

Borough residents work in the industries listed in the tables below. Over a quarter of residents (28.8%) are employed in the educational services/health care/social assistance industries, by far the largest industry employment sector for Borough residents. The next largest sectors that employ Borough residents include retail trade (12.4%) and professional, scientific, management, administrative and waste management services (11.1%).

In-Place Employment by Industry

According to NJDLWFD data for 2023, there are approximately 290 businesses in Pompton Lakes that employ nearly 2,000 employees. Health care/social services and construction provide the most private sector jobs. Industries without data in the table do not meet publication standards and were therefore suppressed by NJDLWFD, including employment data for transportation/warehousing, information, and administrative/waste remediation.

Travel Time to Work

Commuting times for the Borough's workforce residents are shown in **Table 17** below. About a third of residents, 33.6% of the workforce commute 15 to 29 minutes to work like the County and State where 36.7% and 32.6% of the workforce, respectively, have the same commute time. In Pompton Lakes, 17.7% of the workforce have commutes of 14 minutes or less, which is less than the County at 23.9% and the State at 21.5%. Those who have a commute of 30 to 44 minutes comprise of 31.3% of Pompton's workforce, which is more than the County at 21% and the State at 21.9%. The share of residents whose commute is greater than 45 minutes comprise of 17.4% of the Borough's workforce which is similar to the share of Passaic County's workforce at 17.4% but smaller as compared to the State at 24.1% of the workforce.

Municipal Housing Stock

There are approximately 4,142 households and 4,235 total housing units in the Borough of Pompton Lakes, according to the 2023 ACS data. The following section describes the characteristics of the Borough's housing stock and household characteristics.

Household Size & Type

According to 2023 ACS Census Data, the average household size in the Borough of Pompton Lakes is 2.65, which is smaller than the 2.83 household size for Passaic County. As seen in **Table 18** below, more than half (55.4%) of Borough households are one- and two-person households.

Household Size	Pompton Lakes		Passaic County	
	Total	Percent	Total	Percent
1-person	1,116	26.6%	40,719	23.0%

Source: US Census Bureau, Decennial Census 2020, H9, Household Size

The Census Bureau defines family households as householders living with one or more individuals related by either birth, marriage, or adoption and non-family households as a householder either living alone or with non-relatives only. Family households make up approximately 70% of households in Pompton Lakes, where non-family households make up 30%. Of the Borough's family households, 59.4% are married couple households. Approximately 33% of households have children under the age of 18. Out of all Borough households, 67% of households do not have children present. Most non-family households are householders living alone.

Female householder, no spouse present	649	15.7%
<i>Source: DP02, Selected Social Characteristics, 2023 ACS 5-Year Estimates Data Profiles</i>		

As indicated in the table below, single-family detached housing is the predominant housing type in Pompton Lakes (67.2%). The prevalence of garden-style apartments and other multi-family buildings throughout the Borough account for the 521 units of housing in buildings containing 20 or more units.

Approximately 58% of the Borough's housing stock contains three or more bedrooms, where one- and two-bedroom units make up approximately 40.9% of Borough housing stock. There are relatively few units in the Borough (204) with 5 or more bedrooms, accounting for only 4.8% of the housing stock. It is likely that future downtown redevelopment projects could increase the supply of units containing 1- and 2-bedrooms.

Table 20: Housing Type by Number of Units in Structure

Occupancy Status

According to the 2010 and 2020 Census, the Borough has had very low housing vacancy rates in 2010 (4.6%) and 2020 (0.8%). In 2020, for example, the county-wide vacancy rate was 4.8%. The percentage of owner- and renter-occupied units remained essentially unchanged during the same period, with owner-occupied units accounting for three-fourths of all units. The average household size in Pompton Lakes decreased from 2.91 in 2010 to 2.60 in 2020, consistent with the national trend of decreasing household sizes. Household sizes for renter-occupied units are smaller (2.44 persons) than those of owner-occupied units (2.66 persons). Renter-occupied units tend to be smaller and with fewer bedrooms.

	2010		2020	
	Occupied Units	3,773	95.4%	4,216

Purchase and Rental Value of Housing Stock

Using the 2023 5-Year ACS data, approximately 48% of the 1,128 renters in the Borough spend between \$1,000 and \$1,499 on gross rent. Approximately 10.4% of renters spend less than \$1,000 monthly. The median gross rent in Pompton Lakes (\$1,451) is higher than the median gross rent of the County (\$1,310). Compared to the median contract rent of all surrounding communities, (Bloomingdale \$1,772; Wanaque \$1,885; Wayne \$2,126; Oakland (Bergen County) \$1,462; and Riverdale (Morris County) \$2,351; Pompton Lakes is still the most affordable.

Federal and State standards state that households paying in excess of 30% of their income for housing are considered to be rent-burdened. According to these standards, rent-burdened households make up 28.6% of the Borough's renter households, less than the percentage of rent-burdened located in the County as a whole (53.1%).

Housing Element and Fair Share Housing Plan |The Borough of Pompton Lakes

According to the 2023 5-Year ACS estimates, the median value of owner-occupied housing in Pompton Lakes is \$27,300 less than the median home value for all of Passaic County. Homes valued between \$200,000 and \$500,000 account for 83.7% of Pompton Lakes' owner-occupied housing stock. Homes valued over \$500,000 account for less than 5% of the Borough's stock, compared to approximately 17.6% of housing stock in Passaic County.

Condition of Housing Stock

The Census does not compile data on substandard housing. However, COAH's use of three (3) variables collected by the Census Bureau— old and over-crowded units, homes with incomplete plumbing, and homes with incomplete kitchens— have been upheld by the Appellate Division as satisfactory indicators or “proxies” of the amount of substandard housing within a municipality.

Homes considered 'old' are those homes that are at least 50 years old (built prior to 1970 for Census purposes). According to the 2023 ACS, 2,931 homes, or 69% of the Borough's housing stock, were built prior to 1970.

COAH's rules state that “overcrowded units” are those with more than one person (1.01 persons) living in a room. Approximately 2.8% of households in Pompton Lakes may be considered overcrowded.

The second and third indicators for substandard housing are those units that lack plumbing and kitchen facilities. The 2023 ACS data indicates that there are no units in the Borough that lack complete kitchen and plumbing facilities.

Projection of Housing Stock

The tables below represent Pompton Lakes' projection of housing stock, including the probable future construction of low- and moderate-income housing for the next ten years. N.J.S.A. 52:27D-310 requires that a housing element contain such a projection, including the probable future construction of low- and moderate-income housing for the next ten years. This projection takes into account, but is not limited to construction permits issued, approvals of applications for development and probable residential development of land.

Table 30 shows the Borough's historic development trends which contains building permit, certificate of occupancy (CO), and demolition data, sourced from the Jersey Construction Reporter made available by New Jersey's Department of Community Affairs' Division of Codes and Standards. According to NJDCA, between 2003 and 2023, 89 residential COs were issued, and 140 demolitions were recorded. Accounting for the 140 demolitions, net development in the Borough was -51 units, meaning there was a total loss of 51 housing units or an average loss of 2.4 units per year. Net residential development greatly fluctuated during two-decade period, peaking in the early aughts but afterwards, more housing units were demolished than were constructed. In 2003, there were 16 units of net development in the Borough but the next year, 2004 there was a net loss of one unit. Net development peaked in 2005 with a net growth of 20 housing units. After 2006, except for the years 2010 and 2018, net development was either reported to be at- or below zero. In 2010 and 2018, there were three units of net development.

Year	COs Issued	Demolitions	Net Development
2003	19	3	16
2004	0	1	-1
2005	25	5	20
2006	3	14	-11

<i>Source: "New Jersey Construction Reporter" - New Jersey Department of Community Affairs Division of Codes and Standards</i>			

Due to the built-out nature of the community and the limited available vacant land, it is unlikely that new construction will generate a significant number of new units in the future.

The North Jersey Transportation Authority (NJTPA) forecasts in its "2050 Regional Transportation Plan" that the Borough of Pompton Lakes will continue to grow, and over the next 27 years, will have an annual gain of about 26 households, 58 residents and 11 employees.

HOUSING REGION, REGIONAL INCOME LIMITS AND LMI THRESHOLDS

Housing Regions

The Fourth Round DCA methodology calculated affordable housing obligations for each “housing region,” and then assigned fair share obligations to each of New Jersey’s 565 municipalities. The Fair Housing Act defines a “Housing Region” as a geographical area established pursuant to subsection b. of section 6 of P.L.2024, c.2 (C.52:27D-304.2). The State of New Jersey is divided into six such geographical areas which are listed below:

1. Region 1 shall consist of the counties of Bergen, Hudson, Passaic, and Sussex;
2. Region 2 shall consist of the counties of Essex, Morris, Union, and Warren;
3. Region 3 shall consist of the counties of Hunterdon, Middlesex, and Somerset;
4. Region 4 shall consist of the counties of Mercer, Monmouth, and Ocean;
5. Region 5 shall consist of the counties of Burlington, Camden, and Gloucester; and
6. Region 6 shall consist of the counties of Atlantic, Cape May, Cumberland, and Salem.

The Borough of Pompton Lakes is located with **Housing Region 1**.

Income Limits

Affordable housing in New Jersey is housing that is rented or sold and occupied by, or reserved for occupancy by, “low and moderate income” (LMI) households. In accordance with the Fair Housing Act and affordable regulations, LMI households are those that have a median gross household income limited to the following:

LMI Type	Household Income Limit:
Moderate Income:	More than 50% but less than 80% of the Region’s Median Income
Low Income:	Less than 50% of the Region’s Median Income
Very low income:	Less than 30% of the Region’s Median Income

The Uniform Housing Affordability Controls (UHAC) at N.J.A.C. 5:80-26.3(d) and (e) require that the maximum rent for a qualified unit be affordable to households with incomes less than 70% of the median income for the region, provided the development includes 13% or more very low-income units. The average rent must be affordable for households with incomes no greater than 52% of the median income. The maximum sale prices for affordable units must be affordable to households with incomes less than 70% of the median income. The average sale price must be affordable for a household with an income of 55% or less than the median income.

The income limits for Pompton Lakes are based on the median income established for Region 1. Historically, COAH has relied on US Department of Housing and Urban Development (HUD) estimates of median income for New Jersey’s housing regions. The recent amendment P.L 2024, Chapter 2, has continued to use the HUD estimates to determine income limits for those of moderate incomes, low incomes, and very low incomes. Therefore, the median household income for household sizes 1 through

7+ in Region 1 will be determined using the most recent HUD estimates. The following table reflects the 2025 affordable housing regional income limits for Region 1, prepared by Affordable Housing Professionals of New Jersey (AHPNJ).

Household Income	Household Size				
	1-Person	2-Person	3-Person	4-Person	5-Person
Median	\$89,100	\$101,800	\$114,500	\$127,200	\$137,400
Moderate	\$71,280	\$81,440	\$91,600	\$101,760	\$109,920
Low	\$44,550	\$50,900	\$57,250	\$63,600	\$68,700
Very Low	\$26,730	\$30,540	\$34,350	\$38,160	\$41,220

Source: Affordable Housing Professionals of NJ

LMI Monthly Home Costs

Housing costs for LMI households are restricted to a percentage of their household's eligible monthly income.

- For home ownership units, the maximum initial purchase price shall be calculated so that the monthly carrying costs (including principal and interest- based on a mortgage equal to 95% of the purchase price and the Federal Reserve H15 rate of interest, taxes, homeowner and private mortgage insurance, and condominium/homeowner association fees) do not exceed 28 percent of an eligible household's income.
- For rental units, the initial rent for a restricted rental unit shall be calculated so as not to exceed 30 percent of the eligible monthly income of the appropriate household size.

	1-Bedroom (1.5-bedroom Household)	2-Bedroom (3-Person Household)	3-Bedroom (4.5-Person Household)
Moderate	\$1,355	\$1,626	\$1,878
Low	\$1,129	\$1,355	\$1,565
Very Low	\$677	\$813	\$939

Source: Affordable Housing Professionals of NJ/FSHC 2024 Rent Calculator

AFFORDABLE HOUSING OBLIGATION

As mentioned earlier in this document, on March 20, 2024, Governor Murphy signed P.L.2024, c.2. into law, establishing a new framework for determining and enforcing municipalities' fourth round affordable housing obligations under the New Jersey Supreme Court's Mount Laurel doctrine and the State's Fair Housing Act. In that the legislation requires a housing plan to examine the prior round compliance (first, second, and third rounds), along with the "present need" or "rehabilitation obligation" and the "prospective need obligation" for the fourth round. The purpose of this section of the Plan is to set forth the Borough's approach to satisfying the fourth-round obligation along with noting the prior round compliance.

Prior Round Compliance

The Borough of Pompton Lakes has a history of fulfilling its affordable housing obligation and has participated since Round 1, and the various iterations of Round 3 since 2005. The Borough entered into a settlement agreement with Fair Share Housing Center and adopted a Housing Plan Element and Fair Share Plan on November 19, 2019, which was endorsed by the governing body on December 4, 2019. Although there isn't any vacant land available and the Borough could have adjusted their obligation through a vacant land adjustment, the third-round plan set forth mechanisms to address the entire obligation. The Borough's prior (1987-1999) and third round (1999-2025) were 102 and 265, respectively, for a total of 367 units. The plan included various mechanisms such as existing senior housing, inclusionary development project, group homes / alternative living arrangements, redevelopment areas and projects, etc., as described in detail in the fair share plan. This is described in detail in the Fourth Round Fair Share Plan section of this document. The Borough reserves the right to apply additional credits and any eligible bonus credits towards the future rounds.

Present Need

A municipality's present need obligation, pursuant to the Fair Housing Act (N.J.S.A. 52:27D-304.3.b.), is determined by estimating the number of existing deficient housing units currently occupied by low- and moderate-income households within the municipality. The DCA calculated this number by using the methodology comparable to that used to determine the third-round present need, using datasets made available through the federal decennial census and the American Community Survey, including the Comprehensive Housing Affordability Strategy dataset.

The DCA calculated municipal present need obligations in *Affordable Housing Obligations for 2025-2035 (Fourth Round) Methodology and Background*, released on or about October 18, 2024. This DCA Report calculated a rehabilitation obligation of 45 units for the Borough.

The Borough intends to satisfy the present need obligation through measures explained in detail in the Fourth Round Fair Share Plan.

Prospective Need

The DCA assigned Pompton Lakes a 106-unit Prospective Need, which is also known as the new construction obligation, reflecting the number of units that must be created or zoned for by 2035. The amended statutes required a municipality to either accept DCA's number or present an analysis of its present and prospective fair share obligation in accordance with the formulas established pursuant to N.J.A.C.52:27D-304.2 and N.J.A.C.52:27D-304.3. H2M, on behalf of the municipality, calculated an

adjusted Prospective Need of 104 units. In the analysis conducted, H2M removed land that was inappropriately included in the DCA's calculations for the Land Capacity Factor. This reduced the affordable housing obligations by two units from 106 to 104.

In accordance with the requirements of N.J.S.A 52:27D-301, the Borough filed a resolution of participation before the Affordable Housing Dispute Resolution Program, to propose that Pompton Lake's Prospective Need obligation be set at 104 units. The Borough's resolution was challenged by one intervenor, the New Jersey Builders Association (NJBA), who filed an objection on February 28, 2025. The intervenor's objection contended that Pompton Lake's Prospective Need should remain at 106 units. To resolve this dispute, all parties engaged in the mediation process provided by the Affordable Housing Dispute Resolution Program and mediated to establish the Borough's obligation at 105 units.

The present and prospective need are noted in the table below.

Component	Obligation
Present Need/ "Rehabilitation Share" Obligation	45
Prospective Obligation (2025-2035)	105
Total Obligation	150

The lack of available vacant land continues to be a significant limitation to development opportunities in the Borough of Pompton Lakes. As part of this effort, the Borough prepared an updated Vacant Land Analysis to assess the current development potential as per the amended legislation as described in the following section.

Vacant Land Adjustment

The legislation, pursuant to N.J.A.C.52:27D-310.1.1, allows the municipality to request an adjustment due to available land capacity. The regulations require that as part of the process of adopting and implementing its housing element and fair share plan, identify sufficient parcels likely to redevelop during the current round of obligations to address at least 25 percent of the prospective need obligation that has been adjusted and adopt realistic zoning that allows for such adjusted obligation, or demonstrate why the municipality is unable to do so.

Process

A study of vacant and public lands provides a closer look at existing development and the potential for future development of vacant land, public land, and farmland (if available) based on such factors as lot size, environmental constraints, and accessibility.

This data set was reviewed for completeness and accuracy with respect to property class codes and, where necessary, updated based on local information and/or current aerial images. Data was then compared with local information to eliminate recently developed parcels, parcels in active use for municipal government or utilities purposes, parcels used for open space and recreation (ROSI and Non ROSI properties) and parcels owned by other municipalities, the County or the State.

Section 1 of P.L. 1995, c.231, (C.52:27D-310.1) amends the vacant land adjustment procedures to allow excluding the following as vacant land:

1. Land owned by a government entity that is utilized for a public purpose other than housing.

2. Land listed on a masterplan as being dedicated for the purposes of conservation, park lands or open space that is owned, leased, or operated by a county, municipality, or tax-exempt non-profit organization.
3. Any vacant contiguous parcels of privately-owned land which are too small, when aggregated, to support five (5) or more units based on appropriate standards pertaining to housing density.
4. Historic and architecturally important sites listed on the State Register of Historic Places or National Register of Historic Places.
5. Agricultural lands when the development rights to these lands have been purchased or restricted by covenant.
6. Sites designated for active recreation that are designated for recreational purposes in the municipal master plan.
7. Environmentally sensitive lands where development is prohibited by any State or federal agency, including, but not limited to, the Highlands Water Protection and Planning Council, established pursuant to section 4 of P.L.2004, c.120 (C.13:20-4), for lands Highlands Preservation Area, and lands in the Highlands Planning Area for Highlands-conforming municipalities.

Fourth Round Vacant Land Adjustment

If a municipality seeks a vacant land adjustment, they are required to calculate the Realistic Development Potential (RDP), or the portion of the fair share obligation that can realistically be addressed with inclusionary development. In the Vacant Land Analysis prepared for the Fourth Round, environmentally sensitive land included land in 100-year floodplains, wetlands, Category One (C-1) waterways, etc. Data for these environmental constraints were overlaid on existing parcel maps to identify constrained portions of the vacant properties in question. Parcels partially encumbered and still considered developable or partially developable were left in the inventory of vacant land and the environmentally constrained portions of those lots were removed from the total site acreage calculations. Parcels that were entirely constrained were not considered for the inventory of vacant land with realistic development potential (RDP) but are included in the vacant land inventory. Additionally, any parcels on the State Register of Historic Places or National Register of Historic Places were excluded from the RDP. The statutes require the Borough to evaluate vacant (Tax Class 1) and publicly owned (Tax Class 15C) properties that are not environmentally constrained and consider those sites for inclusionary housing development. All remaining parcels were included in the Borough's land capacity calculation with a 20% low and moderate-income housing requirement applied to the Borough's estimated build-out.

Maps were created to graphically show how the final list of developable properties were determined. A complete description of the Vacant Land Analysis (VLA) process, as well as maps and data tables are included in **Appendix B**.

The lack of available vacant land continues to be a significant limitation to development opportunities in the Borough of Pompton Lakes. The vacant land analysis resulted in a **realistic development potential (RDP) of zero (0)**. There are no parcels of vacant land (Tax Class 1) or publicly owned land (Tax Class 15C) that are of adequate size, unconstrained.

Consideration of Lands Most Appropriate for Affordable Housing

As part of this plan, the Borough considered land that is appropriate for the construction of low- and moderate-income housing. Additionally, the sites are in areas serviced by public water and sewer. The Borough expects that infrastructure and maintenance costs in new developments are to be borne by developers and owners of the property, not the municipality. This includes the cost for developing and maintaining all access drives and private roadways, and connections to water and sewer systems.

The Pompton Lakes Municipal Utilities Authority (PLMUA) is responsible for the Borough's water and sewer. As per the recent correspondence from the PLMUA, a preliminary study was conducted to consider the impact of proposed development on the capacity of the treatment plant. Based on the publicly available data and considering the agreements with the Authority, it is the opinion of the PLMUA's engineer that the treatment plant's daily reserve capacity (per the NJDEP guidelines) would be approximately 36,000 gallons. One of the pending projects would go above that level while the other projects that are pending approval would approach but not exceed that level. The final decision regarding treatment plant capacity for any project exceeding 8,000 gallons per day would come from the NJDEP and the opinion of the PLMUA would not be binding upon the State.

Multigeneration Family Housing Requirements

The Multigenerational Family Housing Continuity Commission was established by the State of New Jersey in 2021. Pursuant to N.J.S.A. 52:27D-310(g), the Fourth Round HEFSP is required to provide an analysis of "the extent to which municipal ordinances and other local factors advance or detract from the goal of preserving multigenerational family continuity as expressed in the recommendations of the Multigenerational Family Housing Continuity Commission." Furthermore, as noted in N.J.S.A. 52:27D-329.20, one of the primary duties of the Commission is to "prepare and adopt recommendations on how State government, local government, community organizations, private entities, and community members may most effectively advance the goal of enabling senior citizens to reside at the homes of their extended families, thereby preserving and enhancing multigenerational family continuity, through the modification of State and local laws and policies in the areas of housing, land use planning, parking and streetscape planning, and other relevant areas." As of the date of this HEFSP, the Multigenerational Family Housing Continuity Commission has not yet adopted any recommendations.

Consistency with the State Development and Redevelopment Plan

Pursuant to the 2025 adopted State Development and Redevelopment Plan (hereinafter the "State Plan"), the entirety of the Borough, barring a small to the north (Park), is within Metropolitan Planning Area 1 (PA-1). The SDRP envisions the Metropolitan Planning Area as accommodating much of the State's growth, through compact development and redevelopment, particularly near transit and amenities, while urging sensitivity to natural habitats and historically overburdened communities.

Affordable Housing Administration & Affirmative Marketing

Article XV, of Chapter 190, Land Use Code sets forth the Affordable Housing requirements including administration of the units. This addresses the Borough's constitutional obligation to provide for its fair share of low- and moderate-income housing, as directed by the Superior Court and consistent with N.J.A.C. 5:93-1 et. seq., as amended and supplemented, and the New Jersey Fair Housing Act of 1985. This addresses the low/moderate income split, bedroom distribution, occupancy standards, affordability controls,

establishing rents and prices, affirmative marketing, income qualification, etc. All newly created affordable units, with limited exceptions, will comply with the affordability control period of 30 years for sale units or 40 years for rental units, as required by the Fair Housing Act and the Uniform Housing Affordability Control Rules.

The Borough created the position of the Municipal Housing Liaison and appointed a staff member to the position. The Municipal Housing Liaison is responsible for administering the affordable housing program, including affordability controls, the Affirmative Marketing Plan, monitoring and reporting, and, where applicable, supervising any contracted administrative agent. The ordinance sets forth standards for the affirmative marketing plan in accordance with N.J.A.C. 5:80-26.15, as may be amended and supplemented.

Article XVII, of Chapter 190, Land Use Code sets forth the standards for Development Fees and establishes an affordable housing trust fund.

New Jersey Highlands Region

As mentioned earlier, the Borough of Pompton Lakes is located with the Highlands Region which is comprised of 88 municipalities. These municipalities are in seven counties namely, Bergen, Hunterdon, Morris, Passaic, Somerset, Sussex, and Warren. The Highlands Region is known for its scenic views and natural beauty, but it is also an important resource for the state and a source of drinking water for over half of New Jersey residents. The Highlands Water and Protection and Planning Act (Highlands Act) has designated two specific boundaries within the Highlands Region—the Planning Area and the Preservation Area. The main distinction between the Planning Area and the Preservation Area is that municipal and county conformance with the Highlands Regional Master Plan is mandatory in the Preservation Area but not in the Planning Area, where plan conformance is voluntary. The Borough of Pompton Lakes is located entirely within the Planning Area (2,000.7 acres).

Furthermore, within the Highlands Planning Area there are three distinct land use capability zones: Protection Zone, Conservation Zone, and Existing Community Zone. These zones also have subzones, which include the Wildlife Management Subzone (within the Protection Zone), the Conservation Zone-Environmentally Constrained Subzone (within the Conservation Zone), the Existing Community Zone-Environmentally Constrained Subzone, and the Lake Community Subzone (within the Existing Community Zone). These zones break down the land within the Highlands Region based on various factors, including geography, natural resources, and the overall carrying capacity of such land for development. Land use capability zones are intended to act like overlay zones, built on the underlying municipal zoning designation and designed to add additional standards to address specific issues that may not be considered in a standard municipal zone, such as watershed management areas, historic preservation, and open space preservation. In the Borough of Pompton Lakes, 43.1% of the land is in the existing community zone, 19.2% of the land is in the protection zone, 16.1% is within the lake community subzone, and 1.9% is within the existing community environmentally constrained subzone. Only about 0.2 acres is located within a wildlife management area.

On October 30, 2008, The Highlands Council and COAH entered into a Memorandum of Understanding to establish a cooperative planning process to plan for and create opportunities for affordable housing within the Highlands Region. As a municipality fully located in the “Planning Area” of the Highlands Region, Pompton Lakes Borough secured a Highlands Plan Conformance Grant which began the process of assessing its intent to conform to the Highlands RMP. The Borough implemented the grant between May 2009 and May 2010. Participation in the grant program provided a process for the Borough to assess the compatibility between meeting the Borough’s affordable housing needs and protecting its significant environmental resources. As part of the Grant process, Pompton Lakes

prepared a “Highlands Housing Element and Fair Share Plan.” Ultimately, upon completion of the Grant deliverables in 2010, the Borough decided not to petition the Highlands Council for Plan Conformance. As mentioned earlier, participation to be a highlands conforming municipality is not mandatory for towns in the highlands planning area.

FOURTH ROUND FAIR SHARE PLAN

Municipalities must demonstrate how they will address their Present Need and Prospective Need obligations in the form of a Fair Share Plan. Additionally, the plan must assess the degree to which the municipality has met its fair share obligation from the prior rounds of affordable housing obligations as established by the prior court approval and determined to what extent the obligation is unfulfilled or whether the municipality has credits more than its prior round obligation.

Prior Round Compliance

The Borough of Pompton Lakes has a history of fulfilling its affordable housing obligation and has participated since Round 1, and the various iterations of Round 3 since 2005. The Borough entered into a settlement agreement with Fair Share Housing Center and adopted a Housing Plan Element and Fair Share Plan on November 19, 2019, which was endorsed by the governing body on December 4, 2019. As mentioned earlier, although there isn’t any vacant land available and the Borough could have adjusted their obligation through a vacant land adjustment, the third-round plan set forth mechanisms to address the entire obligation. The Borough’s Prior (1987-1999) and Third round (1999-2025) were 102 and 265, respectively, for a total of 367 units. The plan included various mechanisms such as existing senior housing, inclusionary development project, group homes / alternative living arrangements, redevelopment areas and projects, etc., as noted in **Table 36**, below. Furthermore, this is in accordance with the 2025 Agreement between the Borough of Pompton Lakes and FSHC.

		Subtotal	35	35	70
		Total	302	92	394
Total Third Round Obligation				367	
				Surplus	27

As seen in Table 36 above, the Borough addressed its affordable housing obligation for the Third Round through a variety of mechanisms, resulting in a surplus of 27 units. As such, there is no obligation carried to the fourth round. As noted in the 2025 Settlement the Borough intends to utilize the surplus credits towards addressing the unmet need in the Fourth Round.

Present Need Compliance

According to the DCA, the Borough of Pompton Lakes has a present need of 45 units. As per the 2025 Agreement the Borough will utilize a portion of the new affordable veterans housing units at 519 Ringwood Avenue, which are being constructed by the County of Passaic. Therefore, this HEFSP anticipates that out of the total 65 units of veterans housing, the Borough will dedicate 40 units towards the present need. The Borough intends to continue to contract with Triad Associates to satisfy the remaining five (5) units of the Present Need obligation for the Fourth Round.

Triad Associates Contact information:

Lyanessa Rodriguez

lrodriguez@triadincorporated.com

856-690-5749

1301 West Forest Grove Road, Building #3

Vineland, NJ 08360

Housing Programs Website: <https://www.triadhousingprograms.com/>

The Borough will utilize funds from its affordable housing trust fund and such other funding sources as they exist or may become available.

Credit / Bonus Requirements for the Fourth Round Prospective Need

There are extensive requirements that municipalities must ensure their affordable housing strategies satisfy to be eligible for a Compliance Certification. Furthermore, those requirements vary by round. The following section provides a summary of the requirements as per the amended legislation.

Crediting Requirements

The following crediting requirements apply:

- A maximum of 30% of obligation can be age-restricted housing
- A minimum of 50% of the obligation must be family housing
- A minimum of 25% of the obligation must be through rental housing
 - Half of that number must be available to families with children
- A minimum of 50% of obligation must be low-income housing
- A minimum of 13% of the obligation must be met with very low-income housing (part of low-income housing component)

Credit Bonuses

The regulations have changed the bonus structure since the Round I, Round II, and Round III regulations. The following are the bonuses that are permitted pursuant to C.52:27D-311.11.k:

- One bonus credit for each unit of low- or moderate-income housing for individuals with special needs or permanent supportive housing.
- One-half bonus credit as follows:
 - For each low- or moderate-income ownership unit created in partnership sponsorship with a non-profit housing developer.
 - For each unit of low- or moderate-income housing located within a one-half mile radius, or one-mile radius for projects located in a Garden State Growth Zone, as defined in section 2 of P.L.2011, c.149 (C.34:1B-243).
 - For a unit of age-restricted housing, provided that a bonus credit for age-restricted housing shall not be applied to more than 10 percent of the units.
 - For each unit of low- or moderate-income family housing with at least three bedrooms above the minimum number required by the bedroom distribution.
 - For a unit of low- or moderate-income housing constructed on land that is or was previously developed and utilized for retail, office, or commercial space.
 - For each existing low- or moderate-income rental housing unit for which affordability controls are extended for a new term of affordability, in compliance with the Uniform Housing Affordability Controls promulgated by the New Jersey Housing and Mortgage Finance Agency, and the municipality contributes funding towards the costs necessary for this preservation.
 - For each unit of very low-income housing for families above the 13 percent of units required to be reserved for very low-income housing.

- One bonus credit for each unit of low- or moderate-income housing in a 100 percent affordable housing project for which the municipality contributes toward the costs of the project.
- One bonus credit for each unit of low- or moderate-income housing created by transforming an existing rental or ownership unit from a market rate unit to an affordable housing unit.

Bonus limitations are as follows:

- Bonuses may not exceed 25% of the obligation.

The table below summarizes the Borough's Fourth Round Obligations, resulting in the following minimum and maximum requirements. The Borough will continue to comply with Article XV Affordable Housing Ordinance that requires new affordable units to meet bedroom distribution, income eligibility, and age-restriction, family and rental requirements.

Fourth Round Obligation	Required %	Required Units Prospective Need
Min. Family Housing	50%	53
Other Mechanisms (group homes, etc.)	50%	52
Min. Rental Housing	25%	27
Max. Age Restricted	30%	32
Min. Low Income	50%	53
Min. Very Low Income	13%	14

Fourth Round Compliance Approach and Strategy

Vacant Land Adjustment

The Borough has prepared a Vacant Land Analysis (VLA) for the Fourth Round of Affordable Housing (2025-2035) attached in **Appendix B**. The Fourth Round VLA returned realistic development potential of zero (0) units as there are no adequately sized parcels of vacant land in the Borough that are unconstrained and developable. This results in an RDP of zero and thus an unmet need of 105 units. As per the 2025 Agreement and in accordance with N.J.A.C:52:2D-310.1, the Borough received an adjustment of their prospective need obligations for the Fourth Round based on a lack of vacant land. As such, the Borough is required to address at least 25% of its adjusted prospective need, calculated to be about 27 units, by identifying parcels likely to redevelop. The above-mentioned surplus of 27 units stated in **Table 36** will be generated through the increase of the affordable set-aside to 20% from the existing 10% in the DRA-1 and DRA-2 redevelopment areas. This surplus will be applied to the 25% of the unmet need that must be satisfied through redevelopment.

Credits Towards the Unmet Need

The amended legislation does not provide guidance towards the fulfillment of unmet need. However, as per N.J.A.C. 5:93-4.2(h) and N.J.A.C. 5:93-5.1, the following are a few mechanisms:

1. Zoning amendments that permit apartments or accessory apartments.
2. Overlay zoning requires inclusionary development or the imposition of a development fee consistent with N.J.A.C.5:93-8. In approving an overlay zone, the existing use may be allowed to continue and

expand as a conforming use, but where the existing use on the site is proposed to be changed, the site shall produce low- and moderate-income housing or a development fee; or

3. Zoning amendments that impose a development fee consistent with N.J.A.C. 5:93-8.
4. Rehabilitation of substandard units.
5. Municipally sponsored and 100% affordable construction.
6. Zoning for Inclusionary Development.
7. Alternative living arrangements (i.e., group homes).
8. Purchase of existing homes.
9. Write-down/buy-down (Market to Affordable) programs.
10. Assisted living residences.

As per the settlement agreement, the Borough is proposing to satisfy the unmet need, including the 25% requirement through redevelopment, which will be satisfied through the increase in the affordable set-aside from 10% to 20%, as stated above in **Table 36**. The Borough has other mechanisms in place to address the remaining unmet need such as a development fee ordinance, a mandatory set-aside ordinance for developments containing five units, and through the affordable veterans housing units at 519 Ringwood Avenue constructed by the County of Passaic.

Zoning for Affordable Housing

Downtown Redevelopment Areas 1 & 2 (DRA-1 & DRA-2)

The Downtown Redevelopment Area 1 and 2 Zone Districts are located along Wanaque Avenue and along Cannonball Road, respectively. The DRA-1 and DRA-2 zone districts were established to fulfill the affordable housing obligations for the Third Round. Currently, the inclusionary set-aside at is set at 10% for developments with more than 5 units. In the Fourth Round, specified sites in the DRA-1 Zone (Block 3000, Lots 3,10,13, 14,19, and 21.01) & DRA-2 Zone (Block 11, Lot 10.03) will increase the set-aside to 20% from the prior 10% inclusionary component. With this increase, it is anticipated to generate a total of 80 additional units. This results in a surplus of 27 units, which will be applied towards the unmet need as noted within the 2025 Agreement.

APPENDICES

APPENDIX A:

Pompton Lakes and FSHC Mediation Agreement

**MEDIATION AGREEMENT BEFORE THE AFFORDABLE HOUSING DISPUTE
RESOLUTION PROGRAM**

In the Matter of the Application of the Borough of Pompton Lakes, County of Passaic
Docket No. PAS-L-000299-25

WHEREAS, the Borough of Pompton Lakes (the “Borough” or “Pompton Lakes”) having filed a resolution of participation in the Affordable Housing Dispute Resolution Program (the “Program”) and a declaratory judgment action pursuant to N.J.S.A. 52:27D-301 et. seq. (the “Fair Housing Act”) on January 24, 2025; and

WHEREAS, the Court entered an order on May 1, 2025 setting the Borough’s Fourth Round fair share obligations as a Present Need of 45 units and a Prospective Need of 105 units, which no party appealed, and ordering the Borough to file a Housing Element and Fair Share Plan (“HEFSP”) by June 30, 2025; and

WHEREAS, the Borough having filed its HEFSP on June 26, 2025 (“Adopted HEFSP”);
and

WHEREAS, Fair Share Housing Center (“FSHC”) having filed a challenge pursuant to N.J.S.A. 52:27D-304.1(f)(2)(b) regarding the Borough’s HEFSP on August 27, 2025; and

WHEREAS, the Borough and FSHC have agreed to amicably resolve the issues set forth in the challenge through this mediation agreement and present this agreement for review by the Program and referral to the Mount Laurel judge pursuant to N.J.S.A. 52:27D-304.1(f)(2)(b) and Administrative Directive #14-24, which if approved will result in a compliance certification for the Borough for the Fourth Round;

THEREFORE, the Borough and FSHC agree:

Fair Share Obligations

1. The Borough's Present Need or Rehabilitation Obligation is 45, the Borough's Prior Round Prospective Need Obligation (1987-1999) was 102, the Borough's Third Round Prospective Need Obligation (1999-2025) was 265, the Borough's Fourth Round Prospective Need (2025-2035) is 105.

Satisfaction of Fair Share Obligations

2. The Borough Present Need obligation of 45 Units will be met by a rehabilitation administered by Triad Associates and using the Affordable Housing Trust Fund as a funding mechanism and will also utilize a portion of the new affordable veterans housing units being constructed by the County of Passaic and not utilized towards prospective need due to residency restrictions located at 519 Ringwood Avenue.
3. The Borough's Prior Round Prospective Need and Third Round Prospective Need is 367, which is met by the following mechanisms:

Subtotal		35	35	70
Total		302	92	394
Total Obligation				367
Surplus				27

The above referenced surplus of 27 units will be through the set aside increase of 20% than the existing 10% in the DRA-1 and DRA-2 redevelopment areas. This surplus will be applied to satisfy the 25% unmet need as noted in paragraph 4 below

4. The Borough's Fourth Round Realistic Development Potential (RDP) is zero as a result of the Vacant Land Adjustment. Mechanisms to address unmet need, including the 25% requirement through redevelopment, which will be satisfied through the increase in the set aside from 10% to 20%. The Borough has other mechanisms in place to address the remaining unmet need such as the development fee ordinance consistent with N.J.A.C. 5:90-8, a mandatory set aside ordinance for development containing five units or more as

noted in Section 190-121 of the ordinance and addressing a portion through the new affordable veterans housing units being constructed by the County of Passaic as noted in paragraph 2 of this document.

Unit Type and Income Distribution Requirement

5. The Borough and FSHC agree that the Borough's HEFSP as presented above satisfies the unit type and income distribution requirement standards set forth in P.L. 2024, c. 2, (including but not limited to N.J.S.A. 52:27D-311(l), N.J.S.A. 52:27D-211(l), N.J.S.A. 52:27D-311(l), N.J.S.A. 52:27D-329.1) and that the Borough shall maintain satisfaction with such requirements for the Fourth Round. All new construction units shall be adaptable in conformance with P.L.2005, c.350/N.J.S.A. 52:27D-311(a) and (b), and all other applicable law. All Prior Round and Third Round compliance shall continue to meet with the applicable percentages and standards for bonuses, family and senior housing, rental and family rental, very low-income units, and adaptability set forth in any prior settlement agreement between FSHC and the Borough, statutory requirements, and the Prior Round and Third Round regulations.
6. In all developments that produce affordable housing, the Borough and FSHC agree that, unless varied by a prior court order of the trial court, the below terms shall apply:
 - a. All of the affordable units shall fully comply with the Uniform Housing Affordability Controls, N.J.A.C. 5:80-26.1, et seq. ("UHAC"), including but not limited to the required bedroom and income distribution, length of affordability controls, and phasing of affordable units.
 - b. The applicability of the updated form of UHAC versus the prior form of UHAC shall be as set forth in the statute and most current form of UHAC adopted by

HMFA. Any terms of a prior agreement, judgment, or grant of substantive certification as to prior round of obligations modifying UHAC as to affordability controls longer than the now current regulations or as to very low-income units shall remain in effect as to those prior rounds of obligations.

- c. The Borough agrees that in order to meet the low-income and very low-income requirement of the Fair Housing Act, it shall adopt an ordinance requiring for all affordable housing developments in its HEFSP that 50 percent of the affordable units within each bedroom distribution shall be required to be for low-income households earning 50 percent or less of the regional median income, including 13 percent of the affordable units within each bedroom distribution shall be required to be for very low-income households earning 30 percent or less of the regional median income.
- d. The Borough agrees to review its Affordable Housing Ordinance and other ordinances to ensure that it complies with the most up to date requirements of UHAC and revise those ordinances accordingly as part of its Fourth Round HEFSP and implementing ordinances.
- e. The affordable units shall be affirmatively marketed in accordance with UHAC and applicable law. The affirmative marketing shall include posting of all affordable units on the New Jersey Housing Resource Center website in accordance with applicable law. The affirmative marketing plan shall include the community and regional organizations shown in the draft affirmative marketing plan attached as Appendix K in the Housing Element and Fair Share Plan.

Process for Approval and Implementation

7. Pursuant to N.J.S.A. 52:27D-304.1(f)(2)(b) and Administrative Directive #14-24, the municipality and FSHC recognize that the Program and/or county level housing judge must still review this agreement and the resulting HEFSP and implementing ordinances and resolutions for compliance with the Fair Housing Act prior to issuing a compliance certification, as follows:
 - a. The Borough and FSHC shall present this mediation agreement to the Program member for review upon full execution by both parties.
 - b. The Program Member shall review the agreement and if satisfied with compliance with the Fair Housing Act shall refer this matter to the Mount Laurel judge for review and entry of certification of compliance, conditioned on adoption of all implementing ordinances and resolutions.
 - c. The Borough shall adopt all implementing ordinances and resolutions no later than March 15, 2026, including but not limited to the outstanding items identified in the next paragraph. No later than 48 hours after adoption or March 15, 2026, whichever is sooner, the Borough shall file the information required by Paragraph 9 and any other adopted ordinances and resolutions on eCourts.
 - d. No later than April 15, 2026, the Borough and FSHC shall provide via filing on eCourts a form of consent order granting final compliance certification for the Court's review or identify any remaining issues of compliance that may be disputed at which point the court shall schedule a conference to review any such areas.
 - e. Both parties agree to implement the terms of this Agreement. If the Program, county level housing judge, or any appellate court rejects this Agreement, the parties

reserve their right to rescind any action taken in anticipation of the Program's approval and return to status quo ante. All parties shall have an obligation to fulfill the intent and purpose of this Agreement, unless to do so would be inconsistent with the final, unappealable adjudication of any Program or court ruling or judgment. The terms of this agreement may be enforced through an enforcement motion in this declaratory judgment or a separate action before the Program or the Superior Court, Law Division.

8. The Borough and FSHC agree that following conditions remain to be met prior to March 15, 2026 as conditions of compliance certification, and that the municipality shall provide these documents to FSHC in draft form for comment by January 1, 2026:
 - a. The Borough will adopt a Fourth Round Spending Plan in accordance with P.L. 2024, c. 2 and the forthcoming regulations at N.J.A.C. 5:99. The Borough agrees to provide a draft of the Spending Plan to FSHC by February 1, 2026.
 - b. The Borough will update and adopt its affordable housing ordinance, development fee ordinance, affirmative marketing plan, and other administrative documents in accordance with the forthcoming regulations at N.J.A.C. 5:80-26.1, et seq., and N.J.A.C. after they are adopted and before March 15, 2026. The Borough agrees to provide a draft of the aforementioned documents to FSHC by February 1, 2026.
9. The Borough and FSHC recognize that substantial changes in circumstances affecting the Borough's RDP are possible pursuant to the holding in *Fair Share Housing Center v. Cherry Hill*, 173 N.J. 393, (2002) and related law. In the event such a substantial changed circumstance occurs, the Borough shall have one hundred twenty (120) days to present to the trial court and FSHC a plan to address such change in circumstances on notice and

opportunity to be heard from FSHC. The Borough agrees that any additional RDP generated due to changed circumstances must be addressed in a manner that is consistent with controlling law.

10. The Borough's Compliance Certification shall be subject to required ongoing monitoring as follows:

- a. The Borough by February 15, 2026, and annually, agrees to electronically enter data into the AHMS system of the Department of Community Affairs of a detailed accounting of all development fees and any other payments into its trust fund that have been collected including residential and non-residential development fees, along with the current balance in the municipality's affordable housing trust fund as well as trust funds expended, including purposes and amounts of such expenditures, in the previous year from January 1st to December 31st.
- b. The Borough by February 15, 2026, and annually, agrees to electronically enter data into the AHMS system of the Department of Community Affairs of up-to-date municipal information concerning the number of affordable housing units actually constructed, construction starts, certificates of occupancy granted, and the start and expiration dates of deed restrictions. With respect to units actually constructed, the information shall specify the characteristics of the housing, including housing type, tenure, affordability level, number of bedrooms, date and expiration of affordability controls, and whether occupancy is reserved for families, senior citizens, or other special populations.
- c. For the midpoint realistic opportunity review as of July 1, 2030, pursuant to N.J.S.A. 52:27D-313, the Borough or other interested party may file an action

through the Program seeking a realistic opportunity review and shall provide for notice to the public, including a realistic opportunity review of any inclusionary development site as set forth in the adopted HEFSP that has not received preliminary site plan approval prior to the midpoint of the 10-year round. Any such filing shall be through eCourts or any similar system set forth by the Program with notice to any party that has appeared in this matter.

11. This Agreement may be executed in counterparts, all of which together shall constitute the same agreement, and any exhibits or schedules attached hereto shall be hereby made a part of this Agreement. This Agreement shall not be modified, amended or altered in any way except by a writing signed by each of the parties. Each party acknowledges that each has entered into this Agreement on its own volition without coercion or duress after consulting with its counsel, that each signatory is the proper person and possesses the authority to sign the Agreement, and that this Agreement was not drafted by any one of the parties, but was drafted, negotiated and reviewed by all parties, therefore, the presumption of resolving ambiguities against the drafter shall not apply. Unless otherwise specified, it is intended that the provisions of this Agreement are to be severable. The validity of any article, section, clause or provision of this Agreement shall not affect the validity of the remaining articles, sections, clauses or provisions hereof. If any section of this Agreement shall be adjudged by a court to be invalid, illegal, or unenforceable in any respect, such determination shall not affect the remaining sections. No member, official or employee of the municipality shall have any direct or indirect interest in this Agreement, nor participate in any decision relating to the Agreement, which is prohibited by law, absent the need to invoke the rule of necessity.

VACANT LAND ANALYSIS

Vacant Land Analysis - Procedure

A complete description of the 2025 Vacant Land Analysis (VLA) process, as well as maps and data tables are included herein.

As seen in the attached table, there is no vacant unconstrained land available in the Borough of Pompton Lakes. Therefore, the Realistic Development Potential for the Borough of Pompton Lakes is **zero (0) units**.

The following document explains the process used by H2M, on behalf of the Borough of Pompton Lakes, to conduct its Vacant Land Analysis, in accordance with P.L. 2024, Chapter 2 (A4).

Step 1: Identifying Vacant Land – P.L 2024, Chapter 2 (A4), C.52:27D-310.1 (a-c)

When computing a municipality's adjustment regarding available land resources as part of the determination of a municipality's fair share of affordable housing, the municipality may exclude the following:

1. Any land that is owned by a local government entity that as of January 1, 1997, has adopted, prior to the institution of a lawsuit seeking a builder's remedy or prior to the filing of a petition for substantive certification of a housing element and fair share plan, a resolution authorizing an execution of agreement that the land be utilized for a public purpose other than housing.
2. Any land listed on a master plan of a municipality as being dedicated, by easement or otherwise, for purposes of conservation, park lands or open space and which is owned, leased, licensed, or in any manner operated by a county, municipality or tax-exempt, nonprofit organization including a local board of education, or by more than one municipality by joint agreement pursuant to P.L.1964, c.185 (C.40:61-35.1 et seq.), for so long as the entity maintains such ownership, lease, license, or operational control of such land.
3. Any vacant contiguous parcels of land in private ownership of a size which would accommodate fewer than five housing units based on appropriate standards pertaining to housing density.
4. Historic and architecturally important sites listed on the State Register of Historic Places or National Register of Historic Places prior to the date of filing a housing element and fair share plan pursuant to section 3 of P.L.2024, c.2 (C.52:27D-304.1) or initiation of an action pursuant to section 13 of P.L.1985, c.222 (C.52:27D-313).
5. Agricultural lands when the development rights to these lands have been purchased or restricted by covenant.
6. Sites designated for active recreation that are designated for recreational purposes in the municipal master plan.
7. Environmentally sensitive lands where development is prohibited by any State or federal agency, including, but not limited to, the Highlands Water Protection and Planning Council, established pursuant to section 4 of P.L.2004, c.120 (C.13:20-4), for lands in the Highlands Preservation Area, and lands in the Highlands Planning Area for Highlands-conforming municipalities.

No municipality shall be required to utilize for affordable housing purposes land that is excluded from being designated as vacant land.

H2M Methodology

H2M downloaded the most recent 2024 MOD-IV parcel dataset from the New Jersey Geographic Information Network (NJGIN) and the most recent 2024 property tax data from NJ Property Fax. H2M then identified parcels that may be excluded as identified above by identifying all parcels that were classified as “Class 1 - Vacant Land” or “Class 15C - Public Property” in the 2024 property tax data from NJ Property Fax. Each parcel was further categorized by land use and ownership. Parcels were verified using Google Aerial Imagery, and aerial imagery provided by Nearmap, and the Property Explorer interactive map published by NJ Office of GIS (NJOGIS).

Parcels with a Public Purpose were excluded from the inventory. An example of Public Purpose includes:

- Open Space as identified through the NJDEP’s Recreation and Open Space Inventory (ROSI);
- Parks
- Conservation Easements
- Sewer/Drainage easements
- Future Roadways
- Public Service Buildings (Municipal Buildings, Department of Public Works Buildings, Libraries, etc.)
- Public Parking Areas
- Utilities and Utility Easements

Parcels that could not alone accommodate five dwelling units but in combination with a contiguous parcel could meet this requirement were kept in the inventory.

Step 2: Additional Lands Excluded from Inventory - P.L 2024, Chapter 2 (A4), C.52:27D-310.1 (d-g)

A municipality may partially exclude the following areas from the inventory

1. Agricultural Lands
2. Environmentally Sensitive Lands including
 - a. Wetlands
 - b. Flood Hazard Areas
 - c. 300-foot buffer around Category 1 waterways, as adopted by the State legislature
3. Historic and architecturally important sites listed on the State Register of Historic Places
4. Sites for Active recreation that are designated for recreational purposes in the municipal master plan

H2M Methodology

H2M downloaded various datasets to identify the aforementioned areas within the Borough. This is illustrated in **Map 1: Vacant Land Inventory and Environmental Constraints**.

- **Agricultural Lands:** H2M verified that there are no agricultural lands within the Borough by search for Class 3A: (Farm Regular) and Class 3B Farm (Qualified) in the 2024 property tax list provided by the NJ Property Tax database.
- **50-Foot Buffer for Wetlands:** H2M identified wetlands using data downloaded the most recent “Land Use/Land Cover of New Jersey 2020” dataset published by the NJDEP Bureau of GIS. In accordance with NJDEP regulations, a buffer of 50 feet is required to create a transition area adjacent to freshwater wetlands of intermediate resource value. As such, wetlands and lands within the appurtenant 50-foot buffer area were excluded from the inventory.
- **Flood Hazard Areas.** H2M accessed the “USA Flood Hazard Reduced Set” feature layer which displays the Flood Hazard Areas from the Flood Insurance Rate Map provided by the Federal Emergency Management Agency (**Service Item ID # 2b245b7f816044d7a779a61a5844be23**). The areas in the Borough in 1% annual chance flood or also known as the 100-year Flood Zone were identified as being within the Special Flood Hazard Area (SFHA). Areas of the Borough within the regulatory flood way of waterbodies were also identified during using this dataset.
- **300 - Foot Buffer for Category 1 Waters.** A 300-foot or Category One (C1) is required by the Stormwater Management Act (N.J.A.C 7L8 and the Flood Hazard Area Control Act rules (FHACA; N.J.A.C. 7:13) for certain activities proposed adjacent to waters designated as C1 in the Surface designated as C1 in the Surface Water Quality Standards (N.J.A.C 7:9B). The listing of C1 water is located at N.J.A.C 7:9B (1.1599(c) - (i)). H2M downloaded the most recent, Category One (C1) Waters of New Jersey dataset published by the NJDEP. This dataset is derived from the Surface Water Quality Standard’s (SWQS) which reflects stream classifications adopted as of December 21, 2009.
- **Historic Sites.** H2M verified historic sites listed on the NJ Register of Historic Places by reviewing the list provided by the NJDEP Historic Preservation Office. Additionally, were reviewed GIS data set Historic Properties of New Jersey which is maintained by the New Jersey Historic Preservation Office (HPO). There are seven lots that are designated as or are a part of a registered historic site. These are Block 6707, Lot 1.01; Block 7000, Lot 28; Block 9520, Lot 12.01; Block 9000, Lot 25; 9001, Lot 17; Block 12200, Lot 138, and Block 12600, Lot 1. More detail regarding these sites are listed below in **Table 1**.

Table 1: Historic Sites Identified in the Vacant Land Analysis			
Site Name	SHPO ID#	Block	Lot
Emanuel Einstein Memorial Library	#4783	1609	7000
Pompton Furnace Iron Works and Dam	#632	1609	6707
		1609	9000
		1609	9001
		1609	12600
Colfax Bridge	SI&A#1600503	1609	9520
		16090	12200

- Sites for Active Recreation.** Pompton Lakes contains a number of parks and recreational open space that are classified as Class 15C – Public Properties. These lands were included in the inventory but are not included in the inventory of lands with Realistic Developable Potential (RDP).

Conclusion

As seen in the attached tables and maps, there is no unconstrained developable vacant land available. The public properties are either developed with municipal facilities or encumbered with environmental constraints, open space, within special flood hazard areas, etc. The vacant property is either undersized or encumbered with environmental constraints. Therefore, the Borough's RDP is zero units.
